Exchange rates

This section allows you to check the **exchange rates** on the particular day.

In the filter you can select conversion currencies (i.e. USD > EUR, or GBP > NOK).

All data displayed are subject to **Polish National Bank** rates.

On the screen, apart from the date, you can see the rate of the selected in the filter currency as 'From' to the one selected as 'To'. Leon also shows the percentage in comparison to the previous day.
