

Users

Section 'Users' Users in Leon - the full list of crew members and other departments members

In Leon, you can manage **Users** in many ways. If you are an admin group member you can decide about user's group, endorsements or ratings. However, everything starts with adding a **new user** to the system.

Go to a section Settings > Users and there is the list of all Users. The list can be filtered by: All (both active & deleted users are displayed), Active (users with access to Leon only) or Deleted (users with no access to Leon).

You can also use order indicators placed next to: Name, Surname, Code, Login, Email, Status or Last Visit Date to change the order of displaying users.

A field 'Search' allows quick finding of a particular user by either his name, surname or a code.

The User list can be **exported to excel** by clicking on the  icon. The excel file contains the basic information available in user quick edit pop-up as well as the user status.

Leon does not monitor expiry date of endorsements for the freelancers - no warnings will appear in OPS panel, when assigning freelancer to new flights.

Adding Users

New user pop-up window

To add a user simply click on  icon and the new pop-up window will open, which is

divided into **6** tabs:

- **General**
- **Documents**
- **Ratings**
- **Other**
- **Experience**
- **Admin**

GENERAL

'General' tab

General tab contains the general user details.

In the 'PERSON' section you can fill in mandatory fields such as Name, Surname, Code, Sex & Login.

Optional fields are Middle name, DoB, Phone, Email, Labels, Company, Homebase, User Base start and end dates of employment. 'Email' is especially useful because all the notifications are sent to this email.

Additionally, there is an option to assign **default Salutation** which will be applied to Sales Documents and Email templates (salutation item in the available data), where **@F** will apply the First name and **@L** will apply the Last name

DOCUMENTS

'DOCUMENTS' tab

The **DOCUMENTS** tab is divided into 4 subsections:

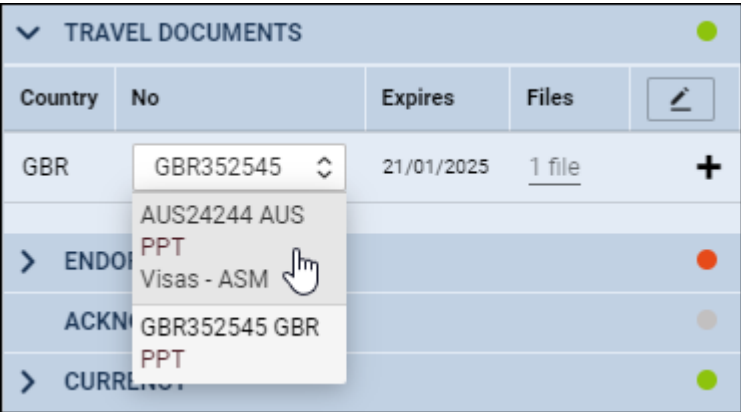

- **PASSPORTS**
- **VISAS**
- **NATIONAL ID'S**
- **VACCINATIONS**

PASSPORTS

Here, you can preview the list of Passports, as well as add a new passport.

Click **NEW PASSPORT** to add one or more passports. You can add a pdf scan and mark which one should be used as a default one.

The other section where you can add a passport to a crew member is OPS, tab CREW (in the right-hand filter). Click on the crew code and open a section **TRAVEL DOCUMENTS**, then click an icon  and add passport/passports details. You can mark a **default** passport which should be used automatically, however, you can always select a passport by marking the appropriate checkbox in a section 'TRAVEL DOCUMENTS'.

VISAS

Here you can add Visas' details and assign them to a specific passport.

First step is editing CREW profile and clicking a button **NEW VISA**

Second step is adding details, as displayed on the screenshot:

- 1. **Passport** - select a passport to which a new visa should be added
- 2. **Country** - select a country which concerns the visa
- 3. **No.** - insert visa's number
- 4. **Country of issue** - country where visa was issued
- 5. **Number of entries**
- 6. **Max number of entries**
- 7. **Date of issue** - insert visa's date of issue
- 8. **Expiry date** - add visa's expiry date
- 9. **Visa scan** - option to upload files
- 10. **Notes** - possibility to insert additional notes

VISAS NEW VISA									
Passport*	Country*	No.*	Country of issue	Number of entries	Max number of entries	Date of issue	Expiry date	Visa scan	Notes
AUS AUS24244	ASM	ASM1233	AUS	5	10	10 Feb 2021	25 Feb 2024	1 file  UPLOAD FILES	+
GBR GBR352545	IRQ	IRQ123	IRQ	1	2	01 Mar 2021	30 May 2021	1 file  UPLOAD FILES	+

NATIONAL ID

Here you can insert National ID details

First step is editing CREW profile and clicking a button **NEW NATIONAL ID**

Second step is adding details, as displayed on the screenshot:

1. **Country** - select a country that issued an ID
2. **Type** - select National ID type from the dropdown selection that includes 'ID card', 'Military card', 'Residence card', etc
3. **No.** - insert National ID number
4. **Date of Issue**
5. **Expiry date**
6. **ID scan** - click on the 'UPLOAD FILES' button in order to upload the scan of the document

NATIONAL IDS		NEW NATIONAL ID				
Country*	Type*	No.*	Date of issue	Expiry date	ID scan	
POL	ID Card	ABC12345	01 Apr 2021	01 Apr 2031	1 file UPLOAD FILES	

Once the 'National ID' is added it can be **selected on a flight** in the 'CREW' tab > 'TRAVEL DOCUMENT' section.

✓ TRAVEL DOCUMENTS			
Country	No	Expires	
POL	ABC12345	02/04/2031	+
	GB789456 GBR PPT		
	ABC12345 POL ID		

VACCINATIONS

Here, you can record the details of the vaccinations including, selecting the disease from the dropdown list, dates of applied doses, uploading the certificate scans and inserting the notes.

VACCINATIONS		NEW VACCINATION ENTRY				
Disease*	Date of 1st dose	Date of 2nd dose	Date of 3rd dose	Scans	Notes	
COVID-19	01 Jul 2021	12 Aug 2021		UPLOAD FILES	+	

In order to add new vaccination details simply click on the **NEW VACCINATION ENTRY** button and record the details of the new vaccination in the additional line.

Once the vaccination details are added, they can also be previewed in the OPS > CREW tab section.

Clicking on the  icon will display the uploaded certificate:

VACCINATIONS	
Disease	
COVID-19	
Malaria	
certificate.png	

Clicking on the file will open the uploaded file in a new tab in the browser.

RATINGS

This is a tab where you can assign ratings to a new crew member. Check [Ratings](#) & [Aircraft Crew Positions](#) chapters for more information.

OTHER

Tab 'OTHER'

This is a tab that contains the following options:

- **'Do Not Fly With'** - this option allows selecting crew members with whom the edited crew member **should not** fly with (for whatever reasons). Click on the field and select person/persons from the list
- **Freelancer** - checkbox that indicates if a User is a freelance crew
- **US eAPIS Master Crew List** - indicates a pilot flying to the US. The following fields are included in API: Name, Surname, Gender, Ratings, Date of Birth, Place of Birth, Nationality, Passport details including Visas, 'Licence' - type endorsements
- **Line training in progress** - the checkbox marks the user as the crew member during line training. Crew with line training in progress can be excluded from the crew completeness calculations, according to the settings in [Crew Planning tab in General Settings](#)
- **Planner note** - the note added here will show up in the crew member's tooltip in [Crew Timeline](#) and [Crew Calendar](#)
- **Duty Accounts** - in this field you can assign duty account to a crew member. It is used for [Duty Trading functionality](#)
- **Duty Manager** - the person set in this field will be the only one able to accept or reject user's duty requests. If no one is set here, duty requests sent by the user can be accepted or rejected by any user with crew panel "edit" privileges
- **Temporary assignment** - section that allows defining Freelancers' contracts. More information on this feature in the [CREW CALENDAR](#) section, 'Freelancers contracts' subsection

EXPERIENCE

Experience

NEW EXPERIENCE

Add approach to table

Date*	Duty Time	Block Time	Aircraft Type	Position	Take Offs Number	Landings Number	Night Take Offs	Night Landings	Holdings	Number of Flights	Dual Flights	PICUS Flights
04 Mar 2022	08:00	09:25	P500	CPTAB	1	0	0	0	0	0	0	0
01 May 2022	08:20	09:17	P500	CPTAB	0	1	0	1	1	2	0	2
25 Apr 2022	10:00	09:22	P500	CPTAB	1	1	0	0	0	2	0	2

'EXPERIENCE' tab

Experience is a tab where you can insert the experience before joining the company or record the flights performed outside the company (instead of recording it on the X-COM aircraft).

To add a new experience simply click on the **NEW EXPERIENCE** button. This will add a new line to the list where the details of past experience/flight performed outside of the company can be added.

Extra columns with the approaches types can be added to the table by selecting the relevant ones from the dropdown list:

Add approach to table

Approaches

ILS cat II

ILS cat III

MLS

RNP-LNAV/VNAV

RNP-LNAV

RNP-AR

RNP-LPV

GPS

The data will be included in the cumulative duty.

Dual flights column indicates the number of training flights with the Instructor.

PICUS flights column indicates the number of flights as a commander under the supervision of a qualified pilot.

ADMIN

This tab contains Admin settings. Includes **'Never log out'** option. **IMPORTANT!!!** Activating this functionality will keep this user logged in during the long period of no activity in Leon. Make sure that the user is logged in **ONLY** on the trusted device with no access from the 3rd parties. It should not be used for the regular user as it may affect system security. It is recommended to enable that function only to users with read-only privileges.

This option is **NOT available** for the Users with Admin rights due to higher security exposure.

Anonimization of Users

Deleted User - OPS view

This functionality is created as part of the process of adhering to the **Regulation (EU) 2016/679** of the European Parliament and of the Council of 27 April 2016 (General Data Protection Regulation).

It is now possible to **permanently** anonymize and delete Users from Leon.

The process is as follow:

1. Go to Settings > Users.
2. Edit an User you wish to permanently delete.
3. Mark an User as Deleted by unticking both checkboxes in 'Account restrictions' section of the profile: 'Can log into Leon' and 'Active' and click 'Update' button.
4. Edit the same User again. Click on **Permanently delete & anonymize data** which is located at the bottom of Edit User page'
5. You should get a pop-up window with the following message: **'Do you want to permanently delete & anonymize data for this contact? This action is irreversible!'**. Clicking 'OK' will permanently delete the User data.

Once the User has been deleted the following areas will be affected:

- User Profile will be permanently deleted from both Settings > Users and the Phonebook.
- If User was assigned to any operation (Flight, Positioning, Office), instead of User Code, there will be a letter **-D-** and in the Tab CREW you will see Permanently Deleted instead of a Name.
- Deleted User will show as **-D-** in the reports that show Flights with this Crew Assigned, for example Custom Flights List Report.

To check who permanently deleted user you can use a button **CHECK PERMANENTLY DELETED USERS** in top-right corner - insert deleted user's code and click

IMPORTANT!

Anonimizing an User is permanent and irreversible. Once the User data has been deleted it cannot be reverted.

Full User Profile

Full user profile

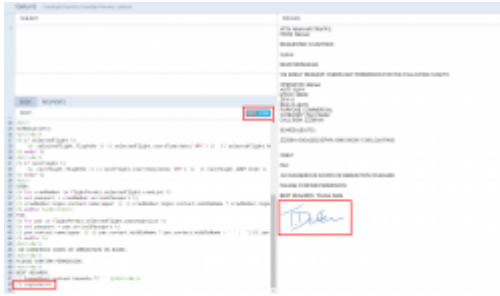

In the bottom-right corner of the user's profile there is a link **Open Full Edit** which allows to add more details into the user's profile, i.e.: Place of Birth, Hire date, User base or add a photo. You can also click an icon  in the users list to open this section.

USER SIGNATURE

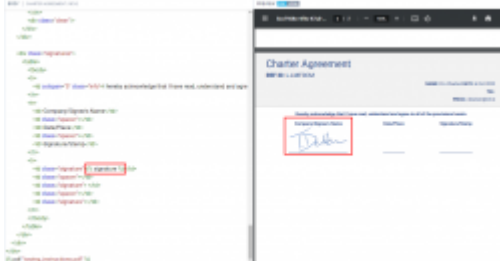

User signatures can be automatically added to the documents (in Documents Manager) and emails (Email Templates).

The first step is to upload a scan/photo of the signature to the User profile - Full User Edit > 'Basic Information' tab > 'Signature' subsection.

The signature scan/photo needs to be uploaded in .png format and named signature, i.e. signature.png

Signature tag used in 'Email templates'

Signature tag used in 'Documents Manager'

Once the signature is uploaded to the profile, it can be applied to the templates:

EMAIL TEMPLATES

The template needs to be switched to HTML version.

The following tag needs to be inserted in the place where the signature of a user is to appear:

{% signature %}

DOCUMENTS MANAGER

Either of the below tags can be used in the place where the signature of a user is to appear:

- **<signature />**
- **{% signature %}**

Both examples are presented in the screens on the right-hand side.

Two-Factor Authentication

An additional **factor authentication** is an option available to each user, which enables functionality that requires a combination of two separate factors of identification in order to **log** into the system. Besides regular login credentials (operator code, login and password) the user has to obtain 6-digit authentication code to log into Leon. This functionality is a measure of additional security of the user account.

Enabling the two-factor authentication mechanism:

1. Mark the checkbox **Two-factor authentication** in the user's profile and confirm by updating

the page.

2. Check your work email INBOX for the new email from Leon. The email will include the change of password as well as the link that will allow you to **pair the mobile device with Leon** via **Google Authenticator** app.
3. Download a mobile app **Google Authenticator** (available for iOS and Android) or similar and

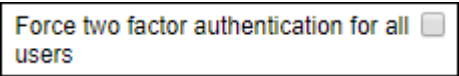

create an account.

4. Pair your app with Leon by using the QR code generated via "Pair your mobile device with Leon!" link received in an email.
5. Log into Leon as usual - when the pop-up window requiring authentication code comes up, use the code generated by the app.

Please make sure the clock on the mobile device is setup correctly and is synced with the internet time server. Any difference in the internet time and device time will result in authentication failure.

It is possible to **mark two-factor authentication for all the users at once**. To do that, you need to go to the ' Settings' > 'General Settings' section and mark **Force two factor authentication for all users** checkbox. The checkbox is unticked by default.

Each code is valid for 60 seconds only.
After this time a new code will be issued.
Make sure to enter the code and confirm
before the 60 seconds period passes.

Update

User personal endorsements

This section consists of 3 tabs:

- **Endorsements** - the list of endorsements specified in [Endorsements](#). Editing of endorsements details (names of endorsements, numbers, dates of issue and expiry date) and adding/removing of the scanned documents is also available after clicking on the selected row (see also [Endorsements](#) for more information).

- **Online training** and **Practical Training** - if a pilot is planned for a flight to a particular airport where special training is required, you can add **training** documents to Leon by clicking on tab 'Practical Training' or 'Online training' in user's 'Personal endorsements' page. Enter airport's code, update it, and add appropriate details. You can also upload a PDF file. More information [here](#)
-

Ratings

This tab is to choose what ratings are held by a specific person and to assign ratings to your crew. For more information please go to [Ratings](#) section of this Manual.

Managing users

To manage User profile, simply click on his/hers name. First thing you will notice is few extra Tabs:

- **Personal endorsements** - the list of endorsements specified in [Endorsements](#) section.
- **User settings** - defining preferred settings of system appearance.
- **Login history** - details about user's login attempts

You will also notice that there are few extra fields in Basic information screen.

Basics

You can edit each of the existing users in order to:

- **Add/remove information** - updating personal details, contact details, passport details, endorsements, generating new passwords, etc
- **Can log into Leon/Active** - Account restriction section. At any time you can delete user's account permanently (if a person is not your employee anymore) or block it temporarily. Unticked "Active" checkbox restricts a user from logging in but one will not be permanently deleted from Leon's database, to avoid historical data disappearing from the system. Users with "Can log into Leon" status will not be able to log in, however, he will be still present in the system (crew planning or reports).
- **Active** - Phonebook data section. This checkbox will allow you to delete User from the [PHONEBOOK](#). "Can log into Leon/Active" and "Active" are connected in a way that whenever you want to delete a person from the Phonebook, Leon will ask you (pop-up) if this person's access to the system should be disabled and vice versa.
- **OML** - Operational Multi-pilot Limitation available in Options section - functionality is further down in this section.
- **Flying experience table** - this is to record Pilots previous experience on a specific type of an aircraft. This can be activated from [General Settings](#) section.
- **Freelancer** - if this checkbox is marked, Leon does not trace any endorsements for the user (no warnings will appear in OPS panel, when assigning freelancer crew to new flights).
- **Manual list** - documents uploaded in [Privileges](#) - Manual tab will be displayed in this section
- **Change password** - you can change your password at any time, or if you have forgotten it, your admin can send it to you. To change a password tick the box 'Generate new password' and

click 'Update'. After a while you will receive an email with a new password.

OML

An Operational Multi-pilot Limitation allows marking a pilot who does not fully meet the requirements for a Class 1 medical certificate and has been referred to the licensing authority. The Pilot is assessed whether the medical certificate may be issued with an OML ‘valid only as or with qualified co-pilot’. The OML for Class 1 medical certificates may only be imposed and removed by the licensing authority.

When you tick this checkbox, Leon will allow this Pilot to operate an aircraft in multi-pilot operations only, if the following conditions are met:

- Pilot is not flying with another Pilot with OML imposed
- Pilot is not paired with a pilot who has attained age of 60 years
- Pilot is not flying in a single-pilot operations

If one of the conditions is not met, Leon will display a warning:

Crew member (HOT) Mark Hotel on leg no. 1 has OML but does not have a co-pilot fulfilling all the necessary conditions:

- Crew member (PAP) William Papa has attained age limit of 60, or
- Crew member (GOL) Julia Golf has OML as well

User settings

User settings options for personal view of data

Here each user can define **preferred settings** of system appearance.

What you can define here is: displayed **date format**, **airport codes** (IATA or ICAO - the system will still recognise both formats when other than default is entered), displaying of **status** of leg info on tool-tip, using **Local Time** as default time instead of **UTC** and automatically changing “To” date on the flights list when 'From' date is changed.

In other words, if you shift the starting date of selected time period, ending date will be also shifted to maintain the length of this time period.
