

Before this change, you could edit **FTL** data and check duty **followed by rest of ...** - which was the rest between the edited duty and the followed one.

<b>HOT - Mark Hotel</b>									
07-10 (Wed): Duty of 12:00 followed by rest of 08:00									
FDP	11:30 / 12:30	122	07-10	10:00	LTN	SXF	13:50		
Duty	12:00	123	07-10	17:00	SXF	LTN	19:30		
	08:00 - 20:00								
Next EOBT	09:00								
08-10 (Thu): Present duty of 08:30 followed by rest of 575:30									
FDP	08:00 / 11:30	124	08-10	06:00	LTN	WAW	08:00		
Duty	08:30	125	08-10	10:00	WAW	LTN	12:00		
	04:00 - 12:30								
Next EOBT	01:30								

The problem was cases when the rest was **too short** between 2 trips, in the Flights List both trips were highlighted in red. On the example below, when you clicked alerted crew code on 08-10 there was no details - they were displayed on the flight on 07-10 (see screenshot above), which sometimes might have been confusing.

Wed 07-10	10:00	LTN	SXF	13:50	M-NOEL	HOT* PAP
Wed 07-10	17:00	SXF	LTN	19:30	M-NOEL	HOT* PAP
Thu 08-10	06:00	LTN	WAW*	08:00	M-NOEL	HOT* PAP
Thu 08-10	10:00	WAW*	LTN	12:00	M-NOEL	HOT* PAP

After the update Leon will show show duty **preceded by rest of ...** - the rest between the edited duty and the previous one.

Also, in cases where the rest was too short between 2 trips, Leon will highlight crew only on the trip **affected** by too short preceded rest.

Wed 07-10	10:00	LTN	SXF	12:30	M-NOEL	HOT* PAP
Wed 07-10	17:00	SXF	LTN	19:30	M-NOEL	HOT* PAP
Thu 08-10	06:00	LTN	WAW*	08:00	M-NOEL	HOT* PAP
Thu 08-10	10:00	WAW*	LTN	12:00	M-NOEL	HOT* PAP

<b>HOT - Mark Hotel</b>									
07-10 (Wed): Duty of 11:00 preceded by rest of 189:55									
FDP	10:30 / 12:30	122	07-10	10:00	LTN	SXF	13:50		
Duty	11:00	123	07-10	17:00	SXF	LTN	19:30		
Next EOBT	09:00								
08-10 (Thu): Present duty of 07:30 preceded by rest of 09:00									
FDP	07:00 / 12:30	124	08-10	06:00	LTN	WAW	08:00		
Duty	07:30	125	08-10	10:00	WAW	LTN	12:00		
Next EOBT	01:30
