

ASSIGNING CREW PROVISIONALLY

This functionality is designed for easier planning of crew that are not flying regularly on one specific aircraft as well as servicing the freelance crew.

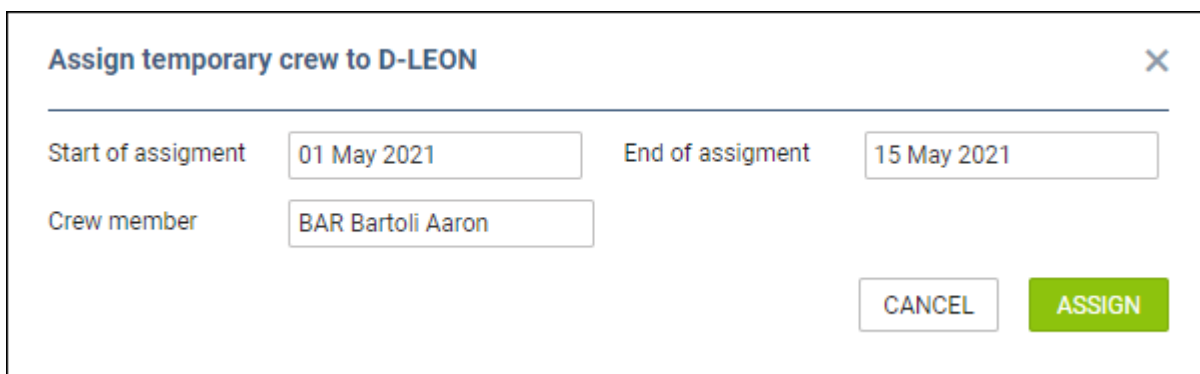

When grouping crew by the aircraft in 3-dot filter it is possible to **assign crew provisionally**.

Right next to aircraft registration click 3 dots and click 'Assign temporary crew'.

In a pop-up window insert: **Start of assignment, End of assignment** and select **crew member/members**.

On the 'Crew Calendar' page, when the date range selected in the calendar covers dates of assignment (either start or end date), Leon will show crew assigned provisionally in **italic**.

D-LEON (GLF4) EGSS	...	^	May 2021											
			01	02	03	04	05	06	07	08	09			
Adam Garcia	AGA	●												
<i>CPT</i>														
Andy Johnson	AN	●												
Antoine Steele	ANS	●												
Antonina Kontreras	ANK	●												
<i>Bartoli Aaron</i>	BAR	●												
<i>Benjamin Lee</i>	BLE	●												

Adding duties for crew assigned provisionally works in the same way as for regular crew.
