

# GetJet

## GetJet integration

**GetJet** allows members to search for a private/business jet flight. To become a member you need to fill-in a short **request-to-join-form** on GetJet web-site (<https://www.getjet.com/en/join>) . Your personal login and password will admit you to the member area.

## How it works

The integration allows exporting Schedule and Services (aircraft availability and empty legs) to GetJet.

## How to integrate

Go to a section Settings > Integration - setting up an integration with GetJet can be done in two easy steps:

1. To activate the integration switch the status to **ON**.
2. Choose the **aircraft** registration that you would like to forward the **Schedule** and **Services** for (marking 'Empty Legs' checkbox is mandatory).

Once it's done click **SAVE** to save the settings.
