

'Keep copies of messages on Leon servers' option

A screenshot of a 'Mailbox configuration' dialog box. It has a title bar with a close button. Inside, there are two input fields: 'Mailbox name' with the value 'Mailbox' and 'E-mail' with the value 'info@leonsoftware.com'. At the bottom, there is a checkbox labeled 'Keep copies of messages on Leon servers' which is checked.

'Keep copies of messages on Leon servers' checkbox'

Keep copies of messages on Leon servers option allows storing copies of messages sent in Leon Sales Panel on Leon servers.

The message in tab 'Messages' has to be read (opened) and once it is, Leon uploads it to the servers.

This way, the message doesn't disappear from the 'Messages' tab when it is deleted from the external inbox.
