Airport categories

In Leon airport categories can be defined manually including a possibility to change the category as per each aircraft.

Invalid Link
Airport categories indications in the Flights List

In the `Flights List` different airport category (other than cat.A**) is being displayed in a different way.**

CAT B - blue mark

CAT C - yellow mark

CAT U - red mark

CAT P - red airport code

If you **hover the mouse over the airport code**, Leon will show a pop-up window with the information about the category, sunrise & sunset times and opening hours.

Airport briefing

Invalid Link
Airport brief required - indications in Flights List

Click on the tab **Brief** to mark if the airport briefing is required (mark the checkbox 'Airport briefing required' or 'Training required or both). You can also upload a pdf file.

If in `Airport Directory` section you only tick a checkbox **Airport briefing required** for a particular airport (without a file uploaded), then the airport code in the flights list is marked with a black frame:

If there is also a pdf 'Aiport briefing' file uploaded, the airport code is marked with the dotted line:
