In the section OPS > Fleet Edit you can add **notes** related to a particular aircraft (i.e. aircraft owner contact details, preffered FBO, etc.) which will appear in 'Legs Info' main page (top-right corner).

Now it is also possible to add these notes on the '**Trip Sheet**' document.

Edit your aircraft in OPS > Fleet section, add notes in the column '**Notes**' and tick the checkbox '**Add aircraft notes on tripsheet**'.

When you view the '**Trip Sheet**' for a flight of that particular aircraft, **notes get displayed** in the section '**ARCRAFT NOTES**'.
