

In Leon you can add a specific **Airport category note** for each airport. It can be information regarding how easy or difficult the airport is to fly into and out of, or if the airport is quiet, is surrounded by flat land, has a reasonably long runway, etc...

Go to OPS > Airport Directory > Edit Airport section and in the field **Airport category note** insert appropriate notes.

**General Airport Information**

ICAO/IATA	EPWAWAW	LON/LAT	E020-58.0/N52-10.0
City	WARSAW	Elevation	362
Country	POLAND	Runway Dimension	12106x197
State	---	Approaches	VOR, ILS, DME
County	---	Lighting Intensity	HIGH
Address1	---	Variation	05E
