Notes included in Flight Notification sent by Leon

We have added an option of including **Notes** (previously added in Schedule) into the overall flight notification email.

To enable this functionality go to a section Settings > Flight Notifications and in a tab 'Notes' mark available checkboxes.

Roster	Notes	Flight	Trip
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Ops notes		
	Trip notes		
	Sales notes		

Each checkbox refers to the appropriate notes added in 2 tabs of the right-hand filter:

- **FLIGHT** - Ops notes & Sales notes.
- **TRIP** - Trip notes.
