

# VISAS

It is now possible to add visas to **PAX & CREW** profiles. Details of visas can get displayed on documents, such as: **Trip Sheet** or **GenDec**.

Adding visas to PAX & CREW profiles works in the same way - they must be inserted to previously added passports. You can add multiple visas to one passport.

First step is editing PAX or CREW profile and clicking a button **NEW VISA**

Second step is adding details, as displayed on the screenshot:

1. **Passport** - select a passport to which a new visa should be added.
2. **Country** - select a country which concerns the visa.
3. **No.** - insert visa's number.
4. **Date of issue** - insert visa's date of issue.
5. **Expiry date** - add visa's expiry date.

Adding details of visas to OPS documents (Trip Sheet and Gendec), can be obtained from [Documents Manager](#) panel, by using items under **visaList**.
