Positioning included in FTL calculation

You can add **Positioning** by clicking **NEW POSITIONING** button at the bottom of Schedule view.

When a new window shows, enter details such as: **Name**, **Date**, **STD**, **Departure**, **Destination** and **STA**. **Duration** will calculate itself.

Clicking on **Crew** field allows you to select designated crew member from a drop-down box, or type-in his/her name or a code.

The screenshot shows the 'EDIT POSITIONING' dialog box with tabs for 'UTC' and 'LT'. It contains a table with the following headers: Name, Date, STD, Departure, Destination, STA, and Duration. Below the table is a 'Crew' field with a dropdown menu. At the bottom, there are three buttons: 'SAVE', 'DELETE POSITIONING', and 'CANCEL'.

The right-hand filter contains 2 tabs:

- **Checklist** - default items are: Crew aware of flight, crew transport & hotel. You can manually add more items by clicking a button **ADD ITEM**.
- **FTL** - FTL Calculation Summary showing most important FTL regulations displayed in 2 columns: **Limit & Actual**.
