

Meals for Crew

We have added an option to mark if **crew** will be provided with **meals** during their duty.

In a section Checklist > CREW click on the icon  and select type of a meal. Once it's done the icon will turn to green to indicate that meals have been added.

Report 'Lunch & Dinner' - a list of crew who have had meals provided

You can also generate a report **Crew > Lunch & Dinner** which shows a list of all crew for whom meals were provided, in a selected period of time. It is possible to select a particular crew member from a drop-down box.

When you hover the mouse over the crew code in this report, Leon will display information about the flights (flight number, date, STD, ADEP, ADES, STA) on which meals were served to the crew.

Code	Person	Breksfasts	Lunches	Dinners
DEL	Thomas Delta	2	1	2

Flight No.	Date	STD	ADEP	ADES	STA	Breksfasts	Lunches	Dinners
BART	01-10-2017	23:00	PRG	NCE	01:01	+	+	+
ABC345	04-10-2017	17:00	CKL	HKG	19:30	+		+

It is possible to export data to Excel file.
