

Flights colouring in Table

In a section Schedule > Table, tab **SHOW** of the left filter allows you to navigate with the **flights colouring**.

Open the filter and in a section **Colours** you can find **4** available checkboxes for the usage. Below are explained examples of different options of flights colouring when particular checkboxes are marked.

Flight type colours - a column 'Flight No.' shows different colours for different trip types: PAX, Ambulance, Cargo **3345** or Flight for Owner, Technical, Training, Other - **3345**.
