

FTL duty scope

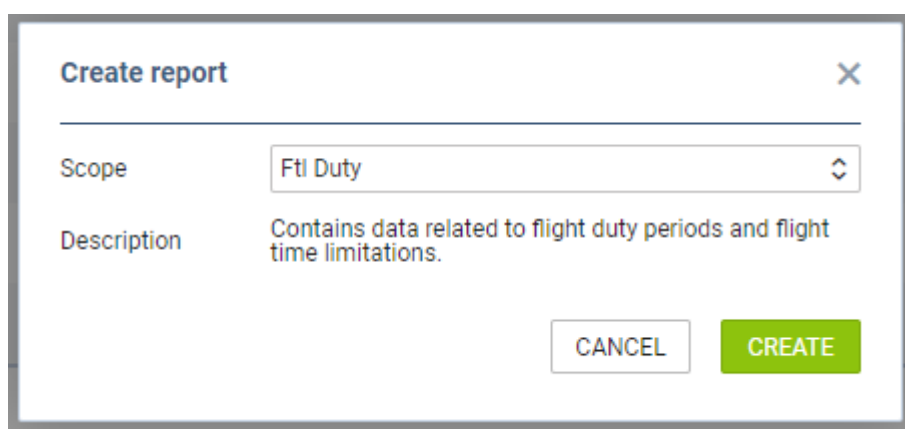

To make it easier to generate a **FTL** report, we have added a separate **FTL duty scope** showing strictly FTL data.

In the main Wizard report page click **ADD REPORT** and select 'FTL duty'.

Scope	Description	Start Date	End Date	Start Time	End Time	Duration	Flight Time	Flight Time Extension	Flight Time Limitation	Flight Time Limitation Extension	Flight Time Limitation Extension Extension
FTL Duty	Contains data related to flight duty periods and flight time limitations.	2019/11/22	2019/11/22	10:18	10:18	00:00	00:00	00:00	00:00	00:00	00:00

FTL report generated from FTL duty scope

Create report ×

Scope Ftl Duty ⌵

Description Contains data related to flight duty periods and flight time limitations.

CANCEL CREATE

Leon will show default FTL columns on the left part of the screen, such as: **Duty** end date & time, Duty length, Duty start date & time, **FDP** start date & time, FDP end date & time, FDP **extension**, **Split duty** time and more.

You can use the **filter** to limit data to particular crew member/members or particular aircraft.
