Visibility of the saved reports in Wizard

Each Leon user who has the access to the Wizard Report is now able to create and save a report to which no other user will have access.

After creating the report, right next to the field where the report can be named/renamed there is a checkbox 

- if it's marked, that report will be visible **ONLY** to the user who has created it - no other user will see it, unless the checkbox is unmarked.

If the checkbox is unmarked all users will see the report and will be able to view it **BUT** will not be able to make changes to it (SAVE button will be inactive).

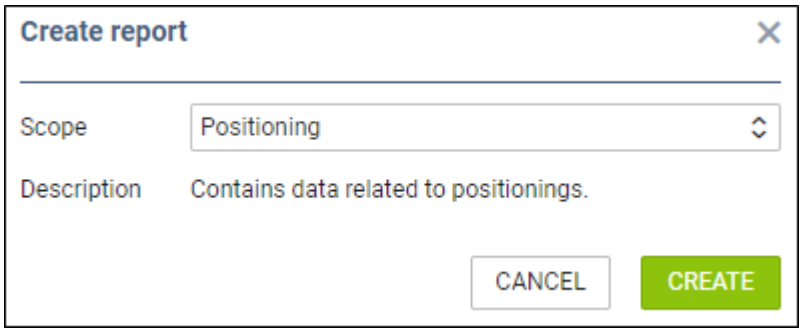

On the main Wizard Report page, in a column **Visibility** each user can check which reports have been enabled to all users (indication 'Company') and which ones are blocked (indication 'Only me').

Positioning reports

Example of positionings report in Wizard

When adding a new report, Leon will show a pop-up window where you will need to select a **Scope**: either 'Flight' or 'Positioning'.

By selecting a scope 'Posiotioning' you will get date related to positionings ONLY, so both: columns & filters options will be narrowed down.

New columns & filters
